EXPERIENCE ([Link](#))

Deloitte

Security Operations Center Analyst

July 2024 - Ongoing
Hyderabad, India

Tools:- Splunk, Cofense, Crowdstrike, Microsoft Defender, OSINT tools.

- Validation and mitigation of security events. Using automation to optimize operations.
- Participating in incident analysis, containment, eradication, and recovery as needed.

Irdeto

Automation Intern

May 2023 - Aug 2023
Delhi, India

- Migrated 50+ **Python** scripts, increasing productivity by 70%. Saved 4 testing hours/day.

EDUCATION

B.Tech in Electronics (Major) and Computers (Minor)

Shiv Nadar Institute of Eminence

2020 - 2024
Delhi, India

SKILLS

Programming:- Bash & Batch scripting, Powershell, Python, Java, HTML, PHP, MySQL.

Miscellaneous:- Automation, Raspberry Pi, Web Development, French, Morse, Typing (80 WPM).

PROJECTS ([Link](#))

OIS - OSINT IOC Scanner

Sep 10, 2024 - Ongoing
[ois](#)

Investigate IOCs in reputed OSINT sites to help analysts determine the verdict.

- Brought down run time from 4.8 to 0.16 minutes by **96%**. Saved 250 hours per month.

Raspberry Pi Projects (IoT)

Sep 2023 - Ongoing
[media server](#)

Hosted services on a securely monitored Raspberry Pi accessible outside local network.

- Hosted media and music servers accessible from anywhere in the world.
- Setting up **SIEM** for monitoring with immediate email alerts using Open Canary.
- Implemented weekly backup to prevent data loss, facilitating remote decryption of volumes.

Cyber Sentinel

Feb 2023 - Jan 2024
[cybersentinel](#)

Under guidance of Dr. Sonia Khetarpaul MTech PhD (IIT Delhi)

- Developed web app vulnerable to OWASP Top 10 with **PHP**, **MySQL** for hands-on learning.
- Demonstrated vulnerability assessment and mitigation in detail. Included tutorials for users.

Memory Wipe

Aug 2023 - Jan 2024
[memorywipe](#)

Under guidance of Dr. Sonal Singhal MTech PhD (IIT Roorkee)

- Designed storage wiper in **Bash** and **Python**, for **IoT** devices running **Linux** and **Windows**.
- Added auto-wipe option to execute best compatible method with plans on adding verification.

Intruder Capture System

Nov 2023 - Dec 2023
[ics](#)

Under guidance of Dr. Rohit Singh MTech PhD (IIT Indore)

- Designed 150-line security system in **Python** & **Bash**, with **Raspberry Pi**, camera, keypad.
- Captured intruder's image after 3 incorrect authentications, sent to server leveraging **MQTT**.

ACHIEVEMENTS ([Link](#))

Certifications:- Blue Team Level 1 (BTL1) by Security Blue Team.

Awards:- Innovator Award from Deloitte for working on the OIS (**OSINT IOC Scanner**) script.

HOBBIES

Playing Piano. [Automating](#) tasks. Competing in [CTFs](#) (OSINT, Forensics, Web).

Updated on **Nov 1, 2025**
